

Finance Committee Report
November 20, 2018

The auditors are currently working on preparing a draft of the Comprehensive Annual Financial Report. We expect to receive a copy of the draft in the coming weeks. After we receive the draft, we will proof the document and complete the Management Discussion and Analysis and Transmittal letter. We hope to have the formal presentation of the audit report at a January Finance Committee meeting.

Staff is currently finishing the October 31, 2018 financial statements. A copy of those statements will be distributed to you as soon as they are complete.
