

Finance Committee Report
February 5, 2019

All Council members and Department Heads should have received a copy of the FY 2018 audit report. The complete audit report will also be posted to the City's website. We are requesting Finance Committee meeting for February 19 to have the auditors formally present the audit report.

Each of the operating departments has submitted their budget requests for the 2020 fiscal year. Staff is in the process of compiling all of the data along with the revenue projections. Over the next two weeks meetings with representatives from each Department will be held to fine tune the budget requests. When the meetings are completed a preliminary budget draft will be prepared for review by the Mayor and City Council.
