

# September 2021

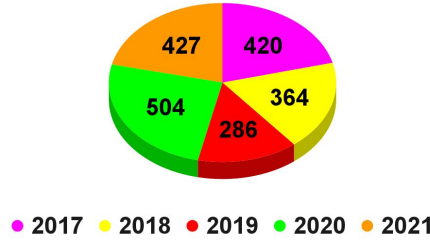

## PUBLIC WORKS MONTHLY REPORT

### 2021 3rd Quarter Pothole Patching 5 Yr Cycle

### September Mowing Man Hours for a 5 Year Cycle

## PROJECTS

### MISTY CREEK PARK IMPROVEMENT

The Public Works Department has finished the four board horse fence and the installation of landscaping. The ribbon cutting is scheduled for late October.

### SUMMER SENDOFF

The Public Works Department participated in the first ever Summer Sendoff event on 9/18/21. Team Members were divided into three shifts throughout the day to ensure everything was a success.

## PROGRAMS

### STREET SWEEPING

Street sweeping not only makes the streets cleaner, it is an important part of stormwater pollution prevention. It prevents unwanted materials from flowing into the storm drains and polluting our streams, causing backups and flooding. The team made one complete round through the entire city but also ran the main corridors on two other occasions.

### CHOKe POINTS

The Public Works Department has areas within the city that flood with heavy rainfall. These areas are refer to as the "Nasty Nlne". When heavy rain is predicted the department will check these areas to make sure they are clear of debris. To try an ensure that the water moves through freely without any obstructions. These areas were checked 7 times this past quarter.

## TRAINING

Team members are back attending virtual and off site training classes. This classes are part of the Road Scholar / Road Master program hosted by the University of Kentucky Technology Transfer Center.

### October Classes:

#### Communications 2.

##### Oct. 5th

This interactive course builds on introductory communication topics by exploring advanced communication strategies.

#### Risk Management.

##### Oct. 7th

This workshop outlines and explains the duties of government officials in providing safe highways and the status of Kentucky law - cases that will affect you.

#### Low-Cost Roadway Safety Improvements.

##### Oct. 29th

The purpose of this workshop is to show participants ways to reduce fatalities and injuries caused by road departures and collisions with fixed objects, as well as collision at rural intersections.

### SAGEBRUSH LN / LEXINGTON AVE.

The Sagebrush Lane street replacement project is wrapping up with just one section of street to be replaced along with a small amount of sidewalk. Lexington Drive will begin the week of October 4th 2021.

### WOODWARD AVE.

The Woodward Avenue project has began with four pours of 200 feet a piece for a total of 800 feet being completed.

### SHADYSIDE DR.

JPS Construction is back to full staff and fully operational with two sections of the Shadyside Drive project removed and replaced.

### SILVERLAKE PARK.

The Silverlake Park Phase 1 Project is wrapping up with just the color coat and striping of the basketball courts remaining, this portion of the project is slated for the week of Oct. the 18th.
