

Introducing

SHARE THE LIGHT FUND

Discover *the power of community*

It's amazing what we can do when we come together. Share the Light Fund brings the community together to help those struggling to pay their bills.

The program is funded through the generosity of our customers and employees, along with the Duke Energy Foundation and the company's shareholders. Since 2013, the fund has provided more than \$27 million to assist an average of 26,000 households across our service areas each year.

Whether you need help, or want to help others, join our community. Together, we can brighten homes and lives.
