PUBLIC WORKS MONTHLY REPORT

PROGRAMS

Summer Send Off

The PW team spent the month preparing for Summer Send Off and the Summer Send Off 5K. The countless hours that went into the planning and execution really shined at the event. The addition of the new shelters and concrete helped set this year apart.

Cahill Commons

The PW team also put the final touches on Cahill Commons for the dedication and unveiling of the sign. This included installing a dry stack wall with landscaping, lighting, and the sign itself. This entire project was completed in house at a huge cost savings.

CAPITAL PROJECTS

New Public Works Facilities

Work continues on all aspects of the new facility with the end in sight. All the LVT flooring, tile, cabinets, plumbing fixtures, light fixtures have been installed. Concrete works continues on the parking lot with just a few sections left to pour.

Street Reconstruction Projects

The first couple of street projects of the new fiscal year went out to bid, with the bids being opened in August. The first project will see full concrete street replacements on Hayden Place and Yager Court. The contract was awarded to Jefferson Contracting with a tentative start date of mid October. The Public Works Department will host a Public Workshop on October 3 at the Public Works Facility to let residents come and see what is taking place and to ask any questions.

The second project will be an asphalt overlay on Theodore Place with the contract being awarded to Riegler Blacktop with a tentative start date of mid October.

Annual Programs

There are three programs that the Public Works Department puts out to bid annually and they are Sidewalk Replacement, Crack Sealing, and Street Striping.

Sidewalk Replacement Program

The sidewalk replacement contract was awarded to Humphrey Concrete. The plan is to start in early fall with completion before the winter months.

Crack Sealing

The crack sealing contract was award to Scodeller Construction. A start date in early spring is expected.

Street Striping

The street striping contract was awarded to A&A Safety and was completed in August.

Capital Park Improvements

John P. Tumlin and Sons have finished the construction side of Phase 3 at Silverlake Park with the installation of 2 shelters, new electric and a concrete plaza. They still need to put the tables, trash cans and grills in place when they arrive. Like everywhere else, there are supply shortages causing the delay.
