

# December 2024

## PUBLIC WORKS MONTHLY REPORT

### PROGRAMS

#### Leaf Collection Program

The 2024 Leaf Collection program came to an end on Friday, December 13th. The crews continued into the next week couple of weeks cleaning up leaves at the City Building and all the City Parks. This is an Exceptional program put together by the crew in the way they run the routes to the dumping of the leaves.

#### Christmas Tree Recycling

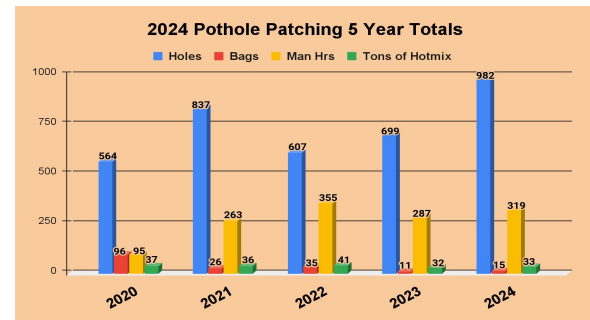

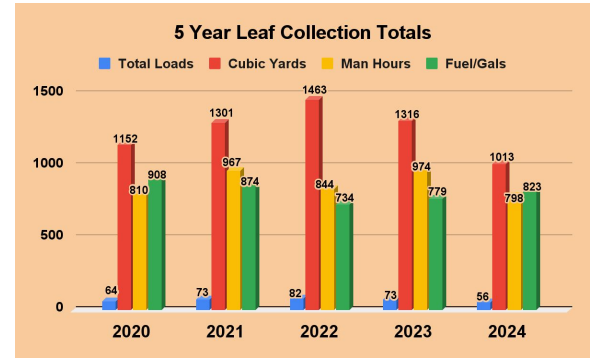

The annual Christmas Tree recycling program will run from December 26th through January 13th, 2025. The trees will then be mulched by Kenton County Public Works and will be disbursed among several county parks as bedding and for walking paths. The trees can be dropped off at the Erlanger Public Works facility on Jack Scheben Drive.

#### Potholes

During 2024, PW's crews filled **982** holes utilizing **15** bags of cold patch, **33** tons of asphalt hot mix and **319** man hours. The chart shows a 5 year comparison.

#### Weather Warriors

The Public Works Department has all of its Winter Weather equipment at the ready for any inclement weather.

### CAPITAL PROJECTS

#### New Public Works Facilities

The old Public Works Facility is slowly being transferred to the new facility. All of the admin/office supplies have been moved with the admin team working from the new facility permanently. The operational side of the department is a slow move as you could expect with all of the logistics the department has for all of its many tasks. The crews will continue moving everything into the new maintenance facility until complete. Please stop by if you have not already and we will be more than happy to give you a tour.

#### Street Reconstruction Projects

Yager Court is on tap for a full replacement with sidewalks and aprons but is on hold until the weather becomes more favorable towards early spring.

Kentaboo Avenue and Virginia Avenue went out to bid. The bids were opened in December with Jefferson Contracting being awarded the contract. This project is expected to start in early spring.

#### Sidewalk Replacement Program

The sidewalk program is on winter break. The work will continue when the weather breaks in early spring and the contractor will continue in the Cherry Hill subdivision.

#### Park Projects

Public Works crews are currently working on Sherbourne Park. It is a slow process due to the changing of the weather. The concrete work has been completed along with the seat wall being installed. The next step is to complete all the grade work and have the shelter and playground equipment installed.
